

LAST DROP

WATER EXTRACTING SUCTION GUN

Suction out the last remaining water in a toilet tank or bowl, drain, sump, P-trap, etc., quickly & easily, down to the last drop!

Saves valuable time & effort and eliminates messy water spills & clean-up associated with service & repairs.

The included 9" inlet/discharge hose can be lengthened easily with readily available plastic tubing.

Rosette-nozzle is easily removed to suction water from space restricted areas.

Heavy duty, industrial grade construction for rugged durability.

Water chamber holds approximately 16 oz. of water.
